ISSUE #2

Adding "GROUPS" to Reports

Since the latest Sage Version 26.2 was released,
If you add a "GROUP" to an existing report,
(IN REPORT WRITER)

It will either:

1. ERASE everything in your report design, or
2. Mix up & move your designed report data to different areas and rows in your report.

"I have alerted Sage and hopefully Sage will do a quick patch."

**PLEASE BEWARE WHEN
WRITING YOUR REPORTS!**
